JD Edwards Notifications

GA

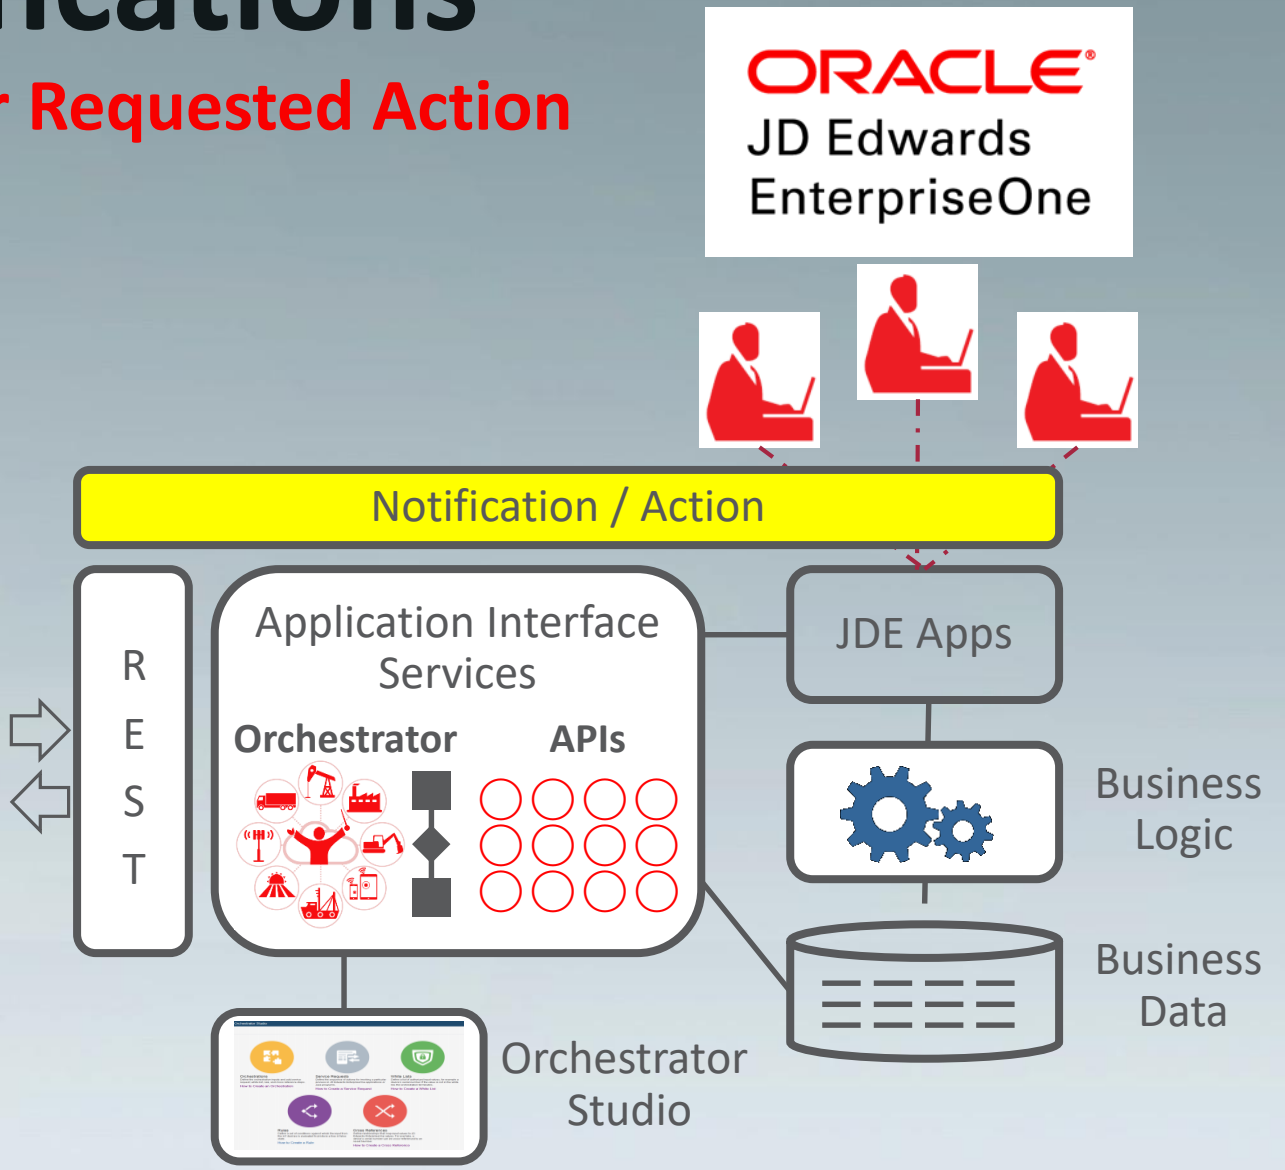
Proactive Push of Information or Requested Action

Capability

- Evaluate conditions
- Subscription model
- Recommend action
- Scheduler

Significance

- Untethered awareness
- Management by exception
- Simple workflow
- Scheduled automation



ORACLE

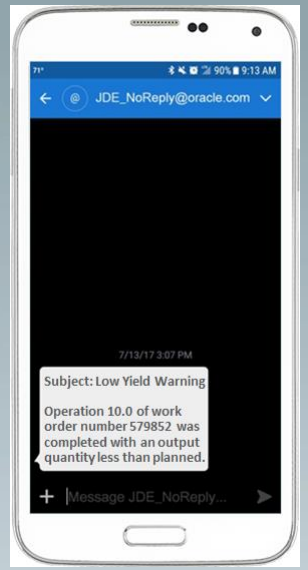
Copyright © 2017, Oracle and/or its affiliates. All rights reserved.

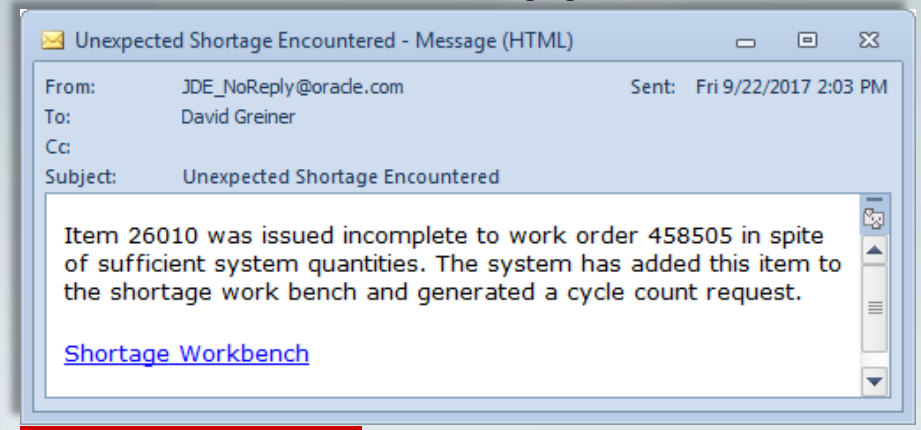
Manufacturing Production Execution

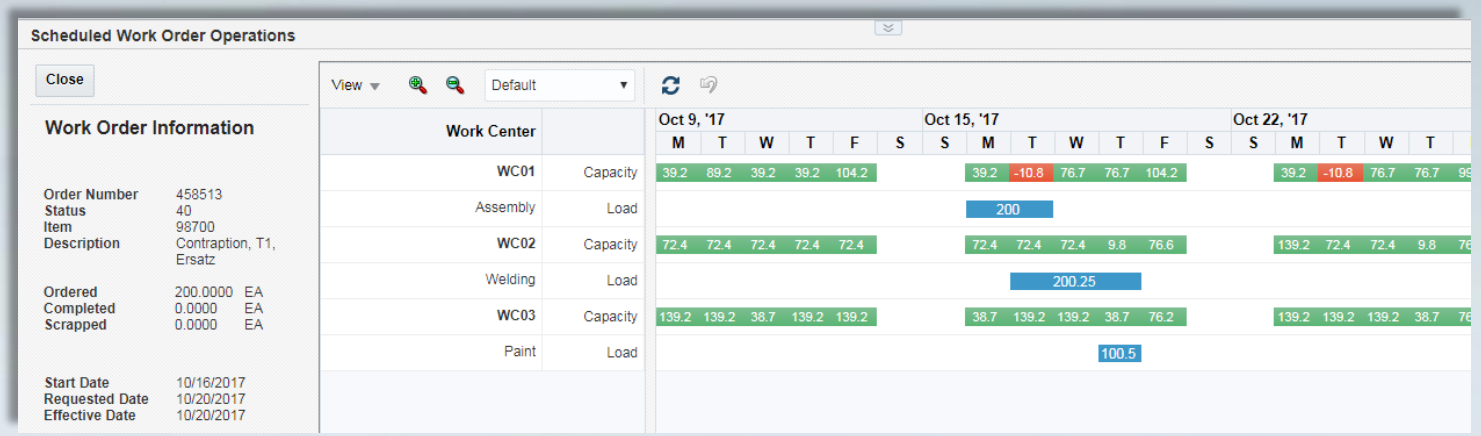
GA

Process Modernization

- Gantt style graphical display of all work order operations
- Drag & drop work order scheduling
- Unexpected shortage triggers cycle count and notifications
- Warning notifications when operational yield is lower than expected
- Notifications of test/inspection failures awaiting disposition
- New mobile applications for Cycle Count and Inventory Transfers





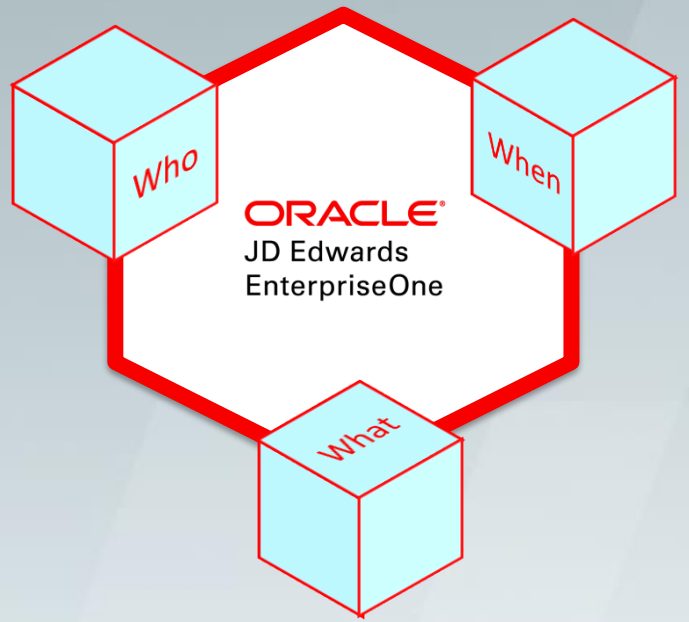


Copyright © 2017, Oracle and/or its affiliates. All rights reserved.

Object Tracking and Impact Analysis

GA

The Who, What and When of EnterpriseOne application usage
Discover the object usage and understand the impact of EnterpriseOne updates



- Which Customizations are being used or no longer used?
- What is the impact of an EnterpriseOne update on my users?
- Which Objects are being accessed and how often?
- Who is accessing EnterpriseOne object?
- When do I have Peak Load on my system?

I want to know which EnterpriseOne users are using which applications and the frequency in order to understand EnterpriseOne usage in my business and identify opportunities to optimize the system.

Future EnterpriseOne Solutions

Planned and Research Highlights on 9.2 Code Line

Planned

ERP Modernization
- Lessee Accounting for Real Estate
- Lease Accounting – non Property
- Lease Term changes
- JVM Indirect Cost Management
- Override Billable Unit Price to Zero for Service Parts
- Context Navigation for Analytic Components
- Electronic Submission of OSHA Injury and Illness
- Mobile Employee Time Entry Phone App

UX Innovation
- Form Personalization: Override Grid Labels
- Form Extensibility: Form/Row Exits
- Form Extensibility: Business View Columns

Digital Transformation
- Administrator subscriptions
- Confirmed orchestrations & messages
- Orchestration Recorder
- Complex workflows: escalation, delegation, etc.
- Modernize Work Center
- Scheduler Enhancements

Operational Simplification
- Platform Neutral Provisioning for Windows
- Simplified Upgrade on One-Click Provisioned Target
- Guided Special Instructions
- Delivery of JD Edwards Trial Edition as a Container
- Platform Neutral Provisioning for iSeries
- Platform Neutral Scale out

Platforms
- Microsoft Windows 2016 - Final phase
- Apple iOS 11
- Visual Studio 2017 & Windows SDK 10
- Oracle WebLogic Server 12.2.1.3
- Oracle ADF 12.2.1.3

Research

- Adaptive Intelligence
- Picking Intelligence (Picking Optimization)
- Auto Replenishment for LPN Branch/Plant
- License Plate Support – PO Receipts
- Expanded Delivery Methods
- Expand LPN Commitment Swap Capability
- License Plate Workbench
- License Plate Support – Work Order
- License Plate Support – Ship Confirm
- Mobile Attachments
- One View Scheduler
- Reverse Ship Confirm
- Shipment Numbers for Direct Shipments
- Expand Shipment Consolidation Capability
- WO Activity Rules for Manufacturing
- Impact Analysis for Multiple ESUs
- Compiler Uplift for Tools Build

Platform Certifications, Security, Legislative & Regulatory Enhancements

The above is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions.
