Stratégies d'évolution | Vue d'ensemble sur les différentes possibilités
Choices for EBS Customers – Any combination of these options

Modernize EBS by Upgrading to 12.2

- 10 years Functional Innovation beyond EBS 12.1
- Modern User Experience, including Enterprise Command Centers (ECC)
- EBS 12.2 is the Continuous Innovation Release
- Long-term Premier Support through at least 2032

Modernize EBS by Lift & Shift to OCI

- Start with DEV/TEST
- Add or migrate your DR on Cloud
- Place your "Reporting" Env. on Cloud
- Shift your PROD to Cloud when ready

Extend EBS with SaaS Co-existence

- Extend with Revenue Mgmt Cloud
- Planning and Budgeting Cloud Service
- Extend with HCM and CX Cloud
- Extend with OTM, GTM, Planning Cloud etc...

Transform by Migrating to SaaS

- Migrate by pillar
- Migrate by product line or business unit
- Migrate by country/region
- Avoid complex integration scenarios

# Extend EBS with Oracle Cloud Applications/SaaS
Hybrid is the New Normal

Single Process or Function - COEXISTENCE

- ERP
  - Planning & Budgeting Cloud
  - Revenue Management Cloud
  - Procurement/Sourcing Cloud (Indirect Proc)
  - Procure-to-Pay Cloud (Indirect Proc)
- CX
  - Sales Cloud with EBS Quoting
  - CPQ Cloud to EBS Order Fulfillment
  - Order Mgt Cloud to EBS Order Fulfillment
  - Service Cloud to EBS Field Service
  - Field Service Management (TOA) Cloud

- SCM
  - Supply Chain Planning Cloud
  - Transportation Management (OTM) Cloud
  - Global Trade Management (GTM) Cloud
  - Product Lifecycle Development Cloud
  - IoT Apps
- HCM
  - Talent Management Cloud
 - HCM Cloud with EBS Payroll

Practical Paths to Oracle Cloud Apps for EBS Customers
Migrate to SaaS Apps in Phases – Currently Running EBS for Core Operations

Running EBS ERP/SCM for core operations

EBS ERP/SCM for American core operations

EBS ERP/SCM for EMEA core operations

EBS ERP/SCM for LAD core operations

EBS ERP/SCM for APAC core operations

Practical Paths to Oracle Cloud Apps for EBS Customers
Migrate to SaaS Apps in Phases – Adopt SaaS for New Businesses

Running EBS ERP/SCM for core operations

Adopt SaaS for new businesses, subsidiaries or acquired companies

EBS ERP/SCM for American core operations

EBS ERP/SCM for EMEA core operations

ERP Cloud For sales subsidiary

EBS ERP/SCM for LAD core operations

EBS ERP/SCM for APAC core operations

Practical Paths to Oracle Cloud Apps for EBS Customers
Migrate to SaaS Apps in Phases – Migrate by Corporate Shared Services
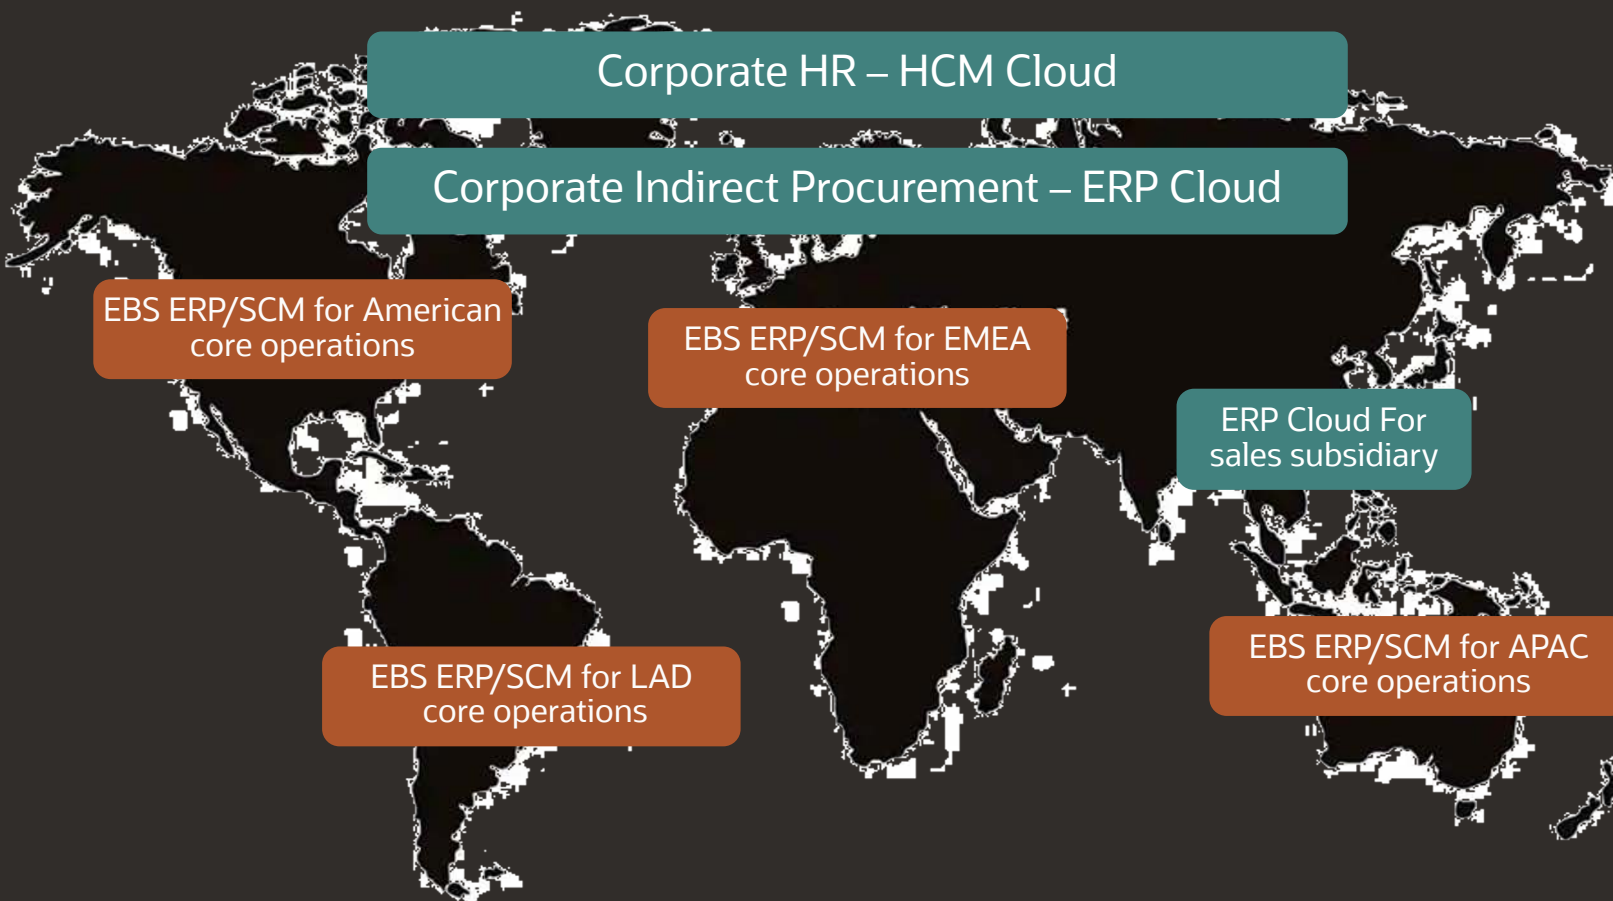

Corporate HR – HCM Cloud

Corporate Indirect Procurement – ERP Cloud

EBS ERP/SCM for American core operations

EBS ERP/SCM for EMEA core operations

ERP Cloud For sales subsidiary

EBS ERP/SCM for LAD core operations

EBS ERP/SCM for APAC core operations

Running EBS ERP/SCM for core operations

Adopt SaaS for new businesses, subsidiaries or acquired companies

Migrate corporate shared services, such corporate HR, corporate indirect procurement and corporate GL

Practical Paths to Oracle Cloud Apps for EBS Customers

Migrate to SaaS Apps in Phases – Migrate by Instance

Corporate HR – HCM Cloud

Corporate Indirect Procurement – ERP Cloud

EBS ERP/SCM for American core operations

EBS ERP/SCM for EMEA core operations

ERP Cloud For sales subsidiary

EBS ERP/SCM for LAD core operations

EBS ERP/SCM for APAC core operations

Running EBS ERP/SCM for core operations

Adopt SaaS for new businesses, subsidiaries or acquired companies

Migrate corporate shared services, such corporate HR, corporate indirect procurement and corporate GL

Migrate by instance but avoid complex integration scenarios

Takeaways

Choices for EBS Customers – Any Combination of These Paths

Modernize EBS by Upgrading to 12.2

- 10 years Functional Innovation beyond EBS 12.1
- Modern User Experience, including Enterprise Command Centers (ECC)
- EBS 12.2 is the Continuous Innovation Release
- Long-term Premier Support through at least 2032

Modernize EBS by Lift & Shift to OCI

- Start with DEV/TEST
- Add or migrate your DR on Cloud
- Place your "Reporting" Env. on Cloud
- Shift your PROD to Cloud when ready

Extend EBS with SaaS Co-existence

- Extend with Revenue Mgmt Cloud
- Planning and Budgeting Cloud Service
- Extend with HCM and CX Cloud
- Extend with OTM, GTM, Planning Cloud etc…

Transform by Migrating to SaaS

- Migrate by pillar
- Migrate by product line or business unit
- Migrate by country/region
- Avoid complex integration scenarios

Thank You
