What we've heard from customers

“One cloud is rarely the answer”

“Our journey to use data well is still unsolved”

“Application agility determines survival”

70%

of organizations have adopted multicloud or hybrid cloud strategies. – IDC

400

average number of data sources at an enterprise. – IDG

80%

of mission critical apps are still on-premises. – IDC/Omdia

We believe in the power of “and”

You have a varied IT portfolio at
different stages of cloud
adoption

We offer SaaS

and

Cloud infrastructure

Run third party, open source, and
Oracle tech equally well

You are on-prem
and in the cloud

We solve on-prem

and

cloud challenges

with software, hardware, and
cloud services for your unique
requirements

You have traditional
and cloud native apps

We run cloud native

and

optimize traditional

with a cloud infrastructure that
doesn't force a re-architecture for
traditional applications

You're already
using public cloud

We offer services on OCI

and

on *or* with other clouds

Use the best service for your
application while minimizing
operational complexity

Analysts and Customers Reviews

Analysts

oracle.com/corporate/analyst-reports.html

It's time to **include Oracle** as a viable option when evaluating public cloud providers.

Oracle should **appear on your shortlist** if you need a competitive price-performance CSP with proven, enterprise-grade reliability credentials.

Oracle IaaS (OCI) receives the **highest customer satisfaction**.

Lower average base IaaS prices than AWS, Microsoft, Google, Alibaba, and IBM since 2018.

Customers

oracle.com/customers

"Using a multicloud strategy, we are the first carrier in Brazil to move 100% of our workloads to the cloud."

Pietro Labriola
CEO, Tim Brasil

MULTICLOUD

SCALE

"It's one of the best decisions I have been part of in my 23 years at FedEx."

Rajesh Singh
VP of IT, FedEx

COST

SCALE

"We selected Oracle for its advantages in performance, scalability, reliability, and superior cloud security."

Eric S. Yuan
CEO, Zoom

COST

PERFORMANCE

PeopleSoft and Oracle Cloud Infrastructure

Why PeopleSoft customers move

Most popular compelling events

1 Hardware Refresh

- CapEx cost of new hardware
- Hardware lock-in (e.g. IBM)

2 Application Upgrades

- No hardware capacity to upgrade
- Moving to SaaS-based solution

3 Issues with Hosting Provider

- Cannot guarantee SLAs
- Renewal triggers cost increase

4 Mergers and Divestitures

- New cost center in different country
- New legal entity in different country

5 High Run and Maintain Costs

- Non-standardized infrastructure
- Old infrastructure – slow performance

6 Exit the Data Center

- Managing data center is not strategic
- Difficult to keep up with technology

7 DR/HA Requirements

- Change of regulatory requirements
- Business continuity requirements

8 Greenfield Implementation

- New application implementation
- New module implementation

Moving your apps to OCI is the easiest way to make them modern

Move

Move application without re-architecture

- Gain higher performance
- Improve availability
- Shift from CapEx to OpEx

Optimize

Incrementally refactor

- Reduce manual work with platform services
- Improve agility with containerization
- Automate your application lifecycle

Extend

Extend your applications

- Improve user experience with new interfaces
- Expand app use with new APIs
- Increase value with integrations to other apps

Oracle makes it easy to move PeopleSoft to the cloud

Maximize TCO, minimize risk, accelerate your business

Flexible licensing, volume discounts

Bring Your Own License

BYOL from on-prem to OCI

Extend your Oracle apps support to the cloud

Universal Credits

Credits that can be used for any infrastructure or platform services worldwide

Volume discounts

Ability to ramp consumption, and increase predictability

Easy to migrate, no re-architecture, strong SLAs

No Re-Architecture

Application & data move as-is

Keep customizations, integrations

No retraining required

Availability, Performance, & Manageability SLAs

With high-availability compute, block volume, object storage, & FastConnect

The first major cloud vendor to guarantee performance

Oracle Cloud Lift

White-glove services to help you move & go-live at no additional cost

Business Case Development

Architecture Design

Network/Security Review

Onboarding

Migration

Training

Go-Live Support

Oracle Support Rewards

Earn rewards to reduce your tech license support bill, even down to zero

Earn 25 cents for every \$1 you spend on OCI

No limits to rewards you can earn, or how much you can apply

OCI value proposition and benefits compared to other CSPs

Superior performance, tooling, & support

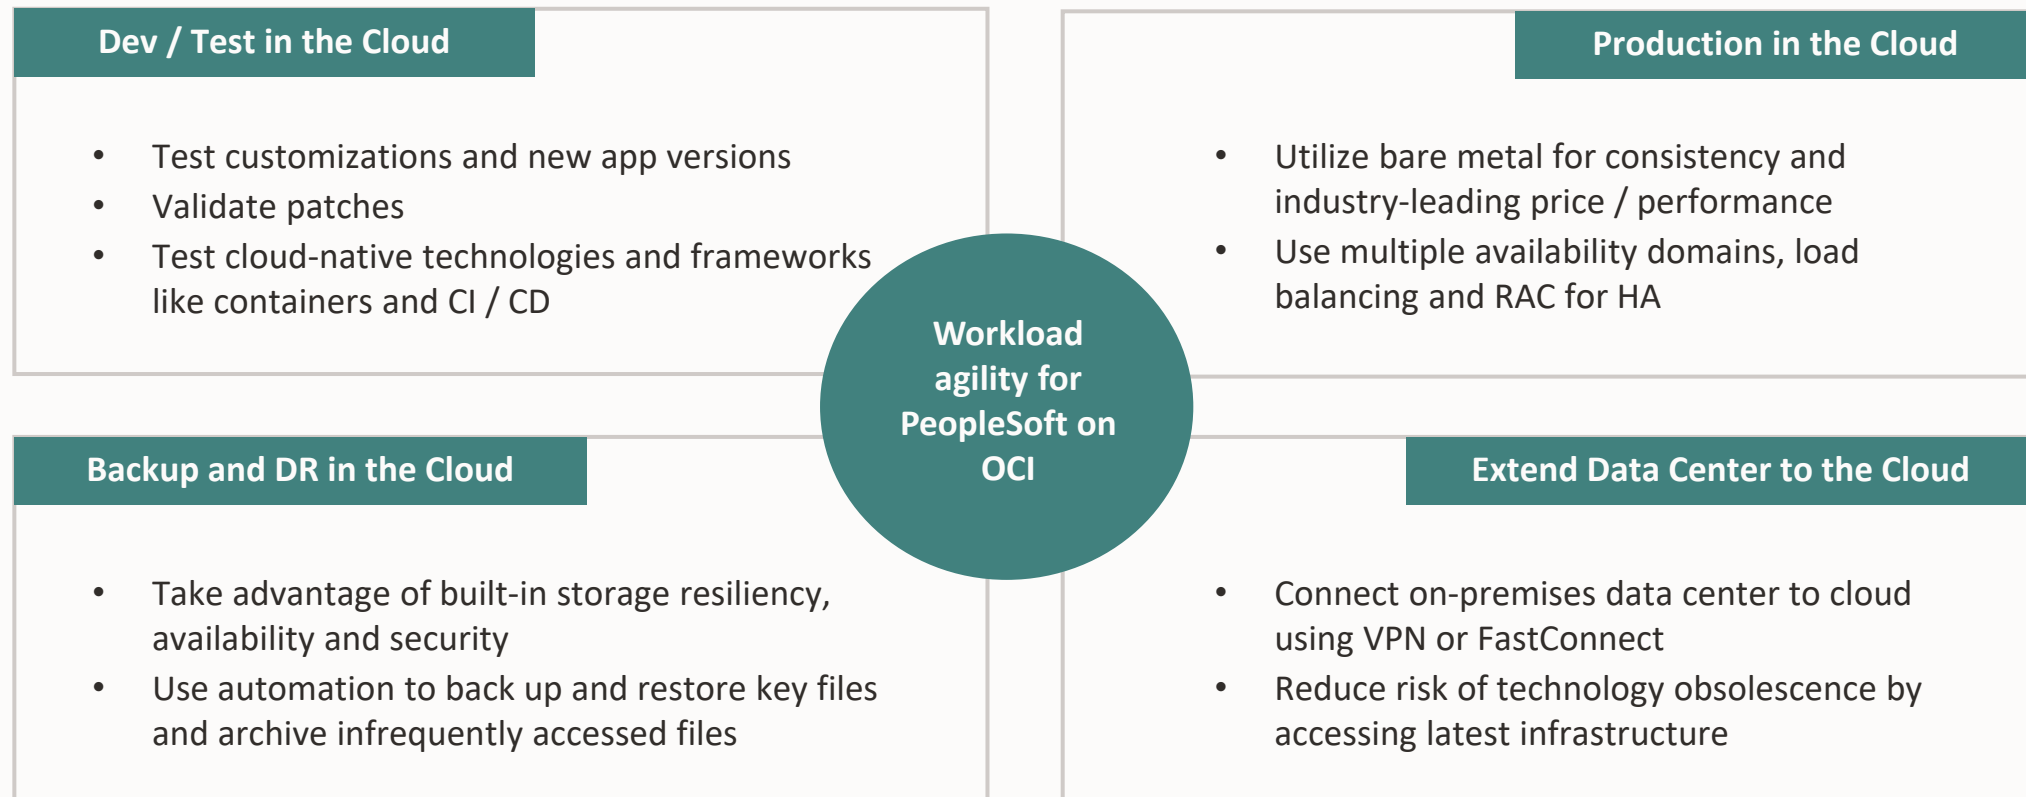

ORACLE
Cloud Infrastructure

| | CAPABILITY | FEATURE LEVERAGED | |

| Support | Predictable performance | The only cloud provider w/ SLAs for performance, availability, and manageability | - |
| | Single vendor support | Collaboration across product teams, promoting quick resolution of issues related to Oracle apps | - |
| | No-cost, eligible workload migrations | Oracle Cloud Lift Services & Oracle Support Rewards | - |

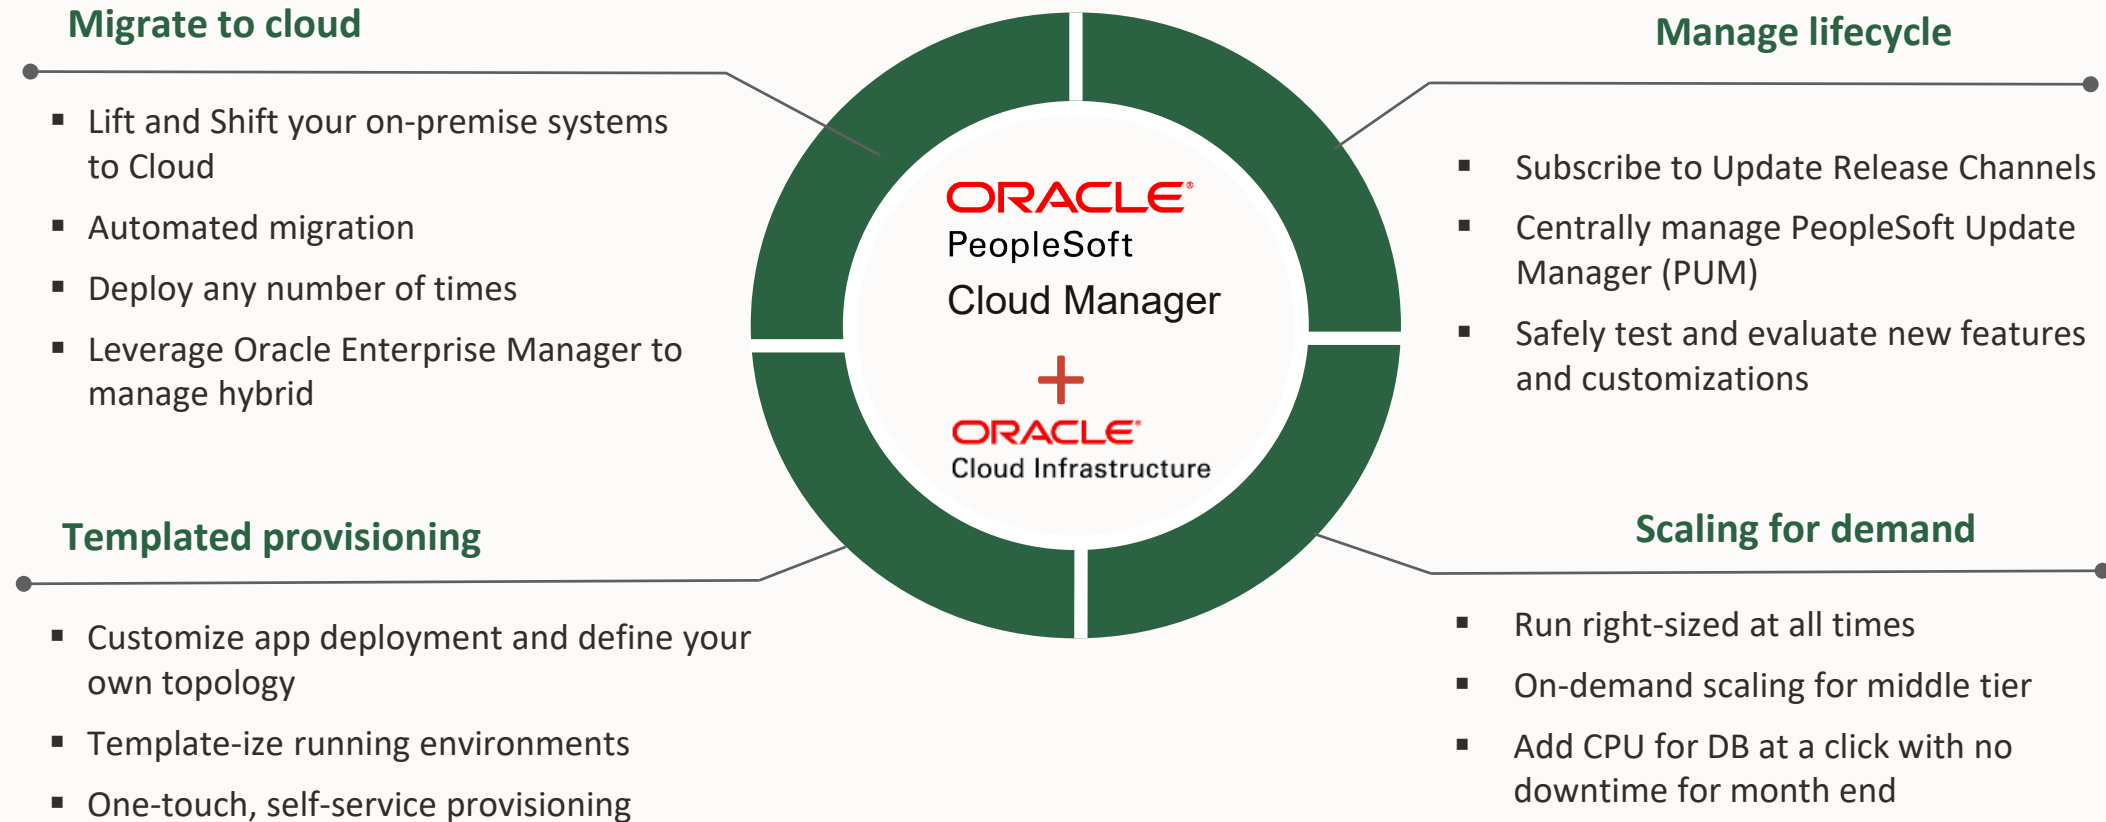

Key use cases for moving PeopleSoft to Oracle Cloud Infrastructure

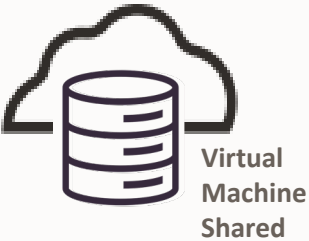

Application aware migration and lifecycle management Tooling

PeopleSoft Cloud Manager is only available on Oracle Cloud Infrastructure

Flexibility with many deployment choices using an Oracle DBaaS in OCI

Broad service offering at every scale to meet diverse business requirements

Enterprise or Standard Database Service

Exadata Database Service

Autonomous Database

Dedicated, fully elastic

Transaction Processing or Data Warehouse

Most Affordable

Highly Differentiated

Leading Edge

Managed Infrastructure

Fully Managed

Singular / Smaller Workloads

Best performance, availability with massive scale

Automation

PeopleSoft on Oracle Cloud Infrastructure

Benefits

“MOVE”

- Low Cost
- Scalable
- Open and Flexible
- Secure
- Fast Deployment Time
- Highly Available

+

“OPTIMIZE”

- Eliminates the complexity of operating database
- Securing Oracle Database,
- Highest levels of performance, scalability, and availability.

Get more from your existing systems and data

More value from your app data

Analytics Cloud

Enable self-service access to data analytics across all your apps in the cloud

Autonomous Data Warehouse

Fully managed cloud service that eliminates all the complexities of operating a data warehouse

Better Integration

Integration Cloud

Migrate/build integrations to a broad ecosystem of SaaS & other applications

Oracle Cloud Applications

Leverage a suite of Oracle SaaS applications that integrate with your PeopleSoft Campus (co-existence)

Simpler Security & Management

Cloud Guard

Quickly/continuously monitor & report on security posture at no extra cost

Logging and Application Performance Monitoring

Unify your application logs at lower cost for more holistic analysis, optimization, and security

Smarter apps

Digital Assistant

Automate operations & drive innovation with pre-built services

PeopleSoft Intelligent Chat Assistant from Oracle (PICASO)

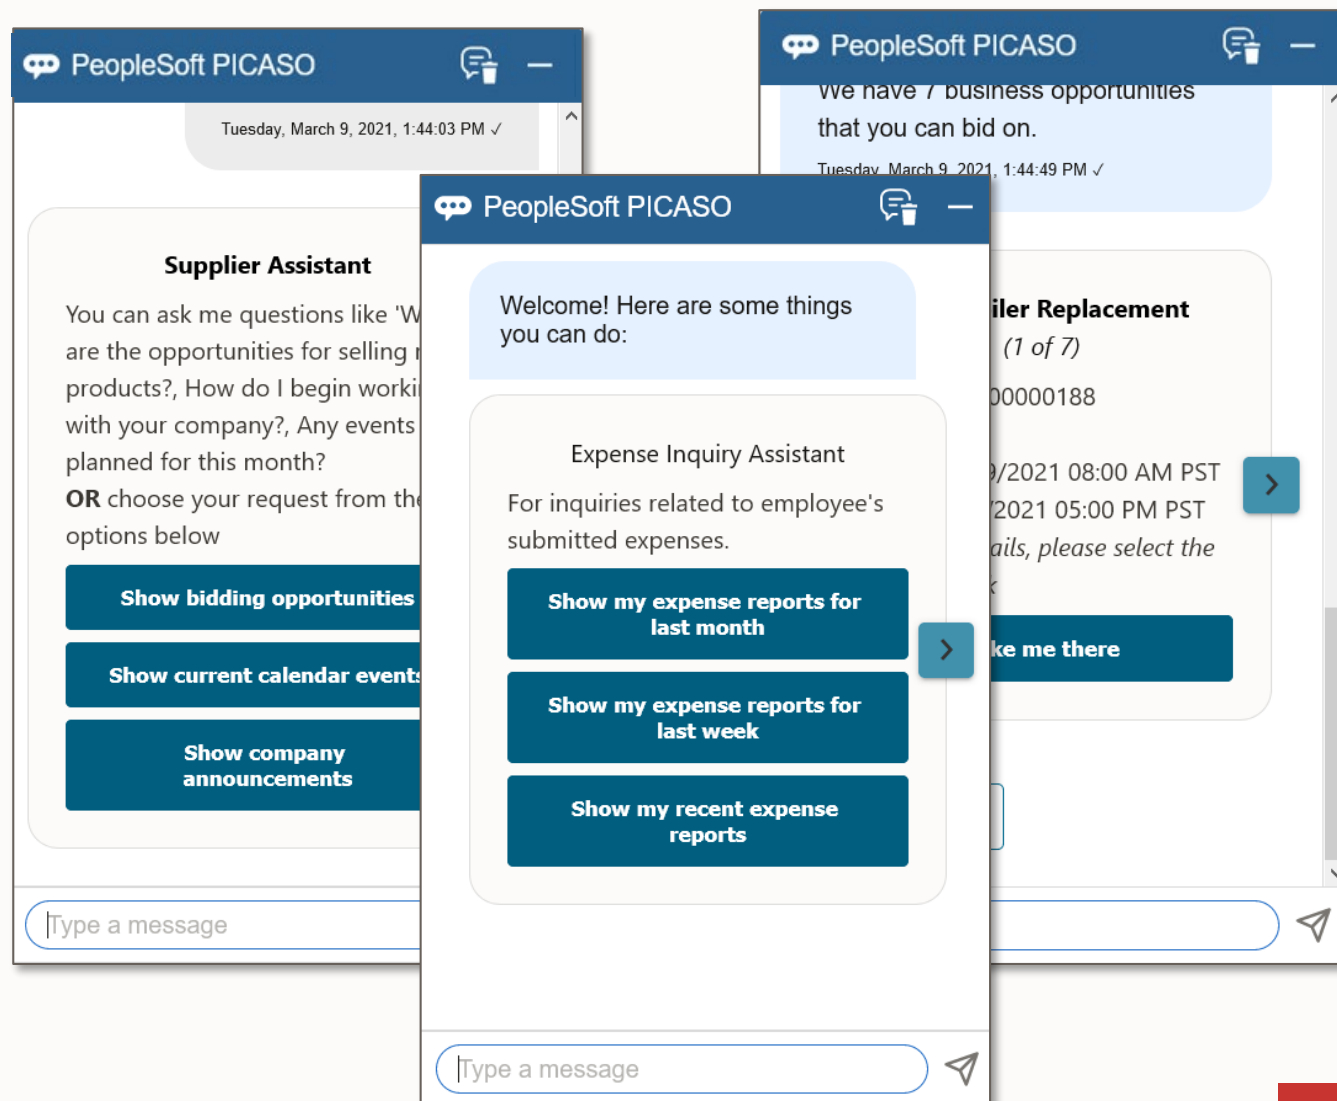

Mobile Application

Accessing PeopleSoft Campus information & employee services anywhere, anytime

PeopleSoft Intelligent Chat Assistant from Oracle (PICASO)

- One assistant for all PeopleSoft
- Unified conversational experience
- Access all skills from almost any Fluid page
- Role-based
- Cluster-enabled
- Multiple skills

PeopleSoft and Oracle Cloud Infrastructure Customers

Why PeopleSoft customers are choosing OCI

1

Far easier to migrate critical enterprise applications

2

Autonomous services make it far easier to manage security, performance, and scalability

3

The most complete support for hybrid cloud strategies

4

Security that's built in, on by default, at no extra charge

5

Superior price-performance

Achieve numerous benefits and cost savings with PeopleSoft on OCI

Lower TCO than on-premises and competing clouds

Superior performance backed by SLAs

Still the PeopleSoft you know—
automated migration and lifecycle
management

Unique capabilities that enhance
infrastructure availability, security,
elasticity, and control

- **Up to 43%** lower TCO vs on-premises
- **Up to 63%** lower TCO vs other clouds
- **2-10x** faster reporting speed
- No single point of failure
- Migrate in **weeks**
- Deploy in **hours**, not days
- **Full automation** of application and tools lifecycle management

Hundreds of PeopleSoft customers have moved to OCI across industries

Automotive | Financial Services | High Technology | Healthcare | Retail | Industrial Manufacturing & Industry Segments | Education (K-12)

Hundreds of PeopleSoft customers have moved to OCI

Optimize your workflows with PeopleSoft on OCI

Agility

Rotary International can now scale its grant application system, meeting spikes in demand for its 1.2 million members

Consolidated reporting (w/ auto-tracking of payables/receivables), improved system performance & scalability

Performance

60% improvement in batch and online performance on OCI

Student enrollment at Universidad de la Sabana previously took 20+ minutes. Today, it takes less than two

TCO

Moved PeopleSoft, Hyperion, OBIEE and Exadata to OCI & realized \$1 million in annual savings

Streamlined employee reimbursement, increased tax system transparency, and secured 50% cost savings

■ ■ Replatforming of PeopleSoft & its ecosystem on Oracle Cloud Infrastructure — (France, Travel & Transportation)

- SNCF is France's national state-owned railway company with €33.5 B annual revenue, operating with 260,000 employees.
- **One of the biggest PeopleSoft customer worldwide**
 - 15 modules including Financials, Purchasing, Supply Chain Mgt, Project Mgt, Enterprise Performance Mgt
 - 30,000 users
 - 40,000 batches per night
- Moved Oracle & Non Oracle Applications to OCI
 - **PeopleSoft 9.0** with PeopleTools 8.55, Hyperion
 - 3rd party: **AxWay, Cartesis, IBM Datastage (ETL), Palo Alto (Security), SQL*Server (Analytics DB), Cognos (BI tool)**
 - OS: RedHat, Windows
- Only Oracle Cloud was able to **meet 24/7 requirement** vs Strategic Cloud choices at SNCF
- OCI enabled a significant **reduction in Technology Risk**, enabling the same technologies to be used in cloud that they trusted today on premise.
