How Purge-it! delivers archiving

Archiving software for JD Edwards

- **100% built in JD Edwards Toolset**
 - OVI / System Codes
 - Easy to learn
 - Easy to use
 - Easy to retain knowledge
 - Doesn't become 'Shelfware'
 - Has a familiar look and feel (JDE)

How Purge-it! delivers archiving

Archiving software for JD Edwards

ORACLE

Validated Integration

JD Edwards EnterpriseOne

Oracle Validated Integration provides customers with confidence that a partner's integration with an on-premises Oracle application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's Oracle Partner Network.

ORACLE VALIDATED INTEGRATION DATA SHEET

Klik IT

Purge-it! Integration with JD Edwards EnterpriseOne 9.2

Purge-it! delivers safe, secure, integrated archiving for Oracle's JD Edwards EnterpriseOne. Designed by Klik IT, an Oracle partner, the integration uses the native application toolset. Purge-it! is an end-to-end archiving and purging solution that supports the entire project lifecycle. The Purge-it! dashboard interface allows users to monitor environment data growth.

COMPANY OVERVIEW

Klik IT has held Oracle partner status since 2004. Purge-it! for JD Edwards World was launched in 2005, then introduced for JD Edwards EnterpriseOne in 2005. The company has provided archiving and data management solutions and services to users of JD Edwards World and JD Edwards EnterpriseOne for almost two decades. Working with hundreds of clients worldwide has enabled Klik IT to amass in-depth knowledge of JD Edwards applications and a strong understanding of and experience with business processes. This skill set enables the company to deliver exceptional products, renowned for being highly effective. Klik IT's expertise extends beyond archive and purge software for JD Edwards EnterpriseOne, into consultancy, analysis, programming, documentation, implementation, support, and training.

INTEGRATION OVERVIEW

Purge-it! 5.01 has been specifically designed to benefit from the latest developments in JD Edwards EnterpriseOne 9.2.

Purge-it! is built within the established JD Edwards EnterpriseOne toolset that is used by Oracle across the entire application family for accessing the database in interactive and batch modes. Building Purge-it! within this toolset gives it the same flexibility and power as the JD Edwards EnterpriseOne system, resulting in the same low total cost of ownership of the main system. Purge-it! also uses the same standard and intuitive user interface as JD Edwards

How Purge-it! delivers archiving

Archiving software for JD Edwards

- **8 Standard Modules**
 - Sales, Purchasing, Payroll, Manufacturing, AR, AP, GL, Inventory
- **Custom Module (everything else)**
 - EDI, Custom Tables, Address Book, Media Objects, Z Tables.... etc

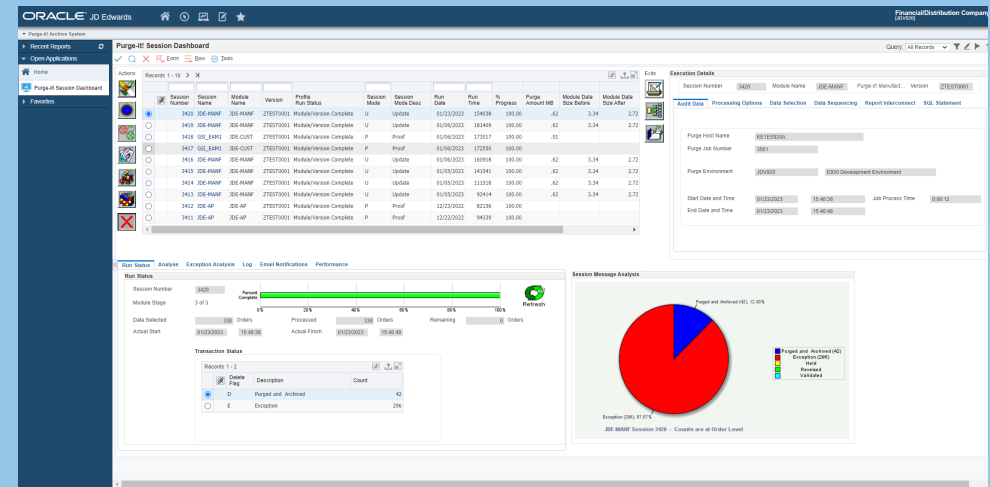

How Purge-it! delivers archiving

Archiving software for JD Edwards

The Engine - Each Standard Module provides the following features:

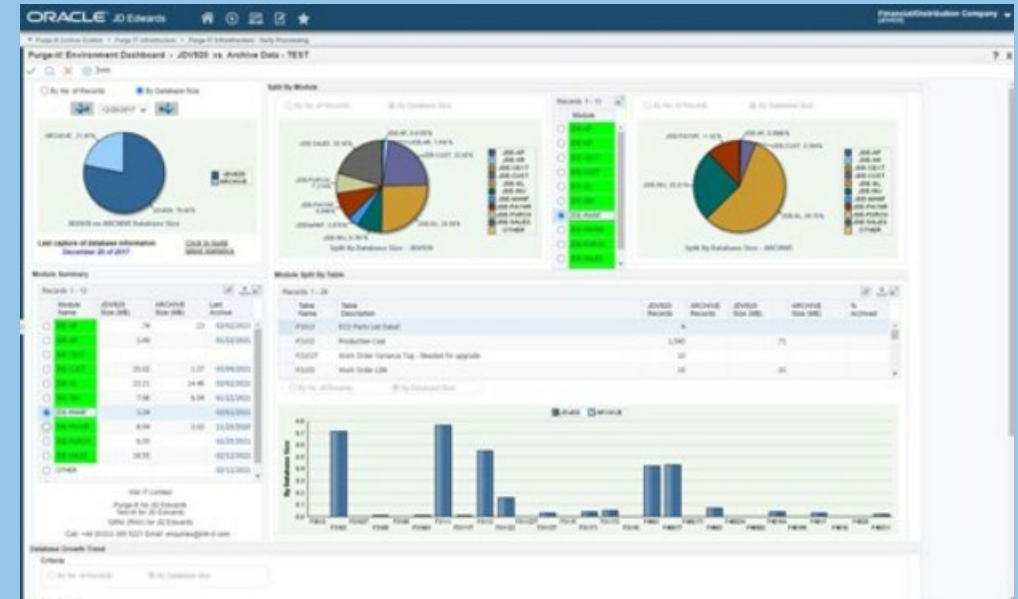

- Flexible data selection
- Transaction level processing
- Validation (data integrity)
- Audit
- Commitment Control
- Reversible
- Audit History
- All in a Single Job

How Purge-it! delivers archiving

Archiving software for JD Edwards

- **Programmed Solution**
 - No SQL Required!
 - You don't need to be technical!
- **Archive Routines – Batch Jobs (UBE)**
 - One Job does everything!
 - Selects, validates, archives, purges, summarizes, writes audit
 - All at a document level!
 - Not a Multi-step process
 - Easy automation (JDE Scheduler)
 - Easy to retain knowledge (JDE Interface)
 - Easy to run!

How Purge-it! delivers archiving

Archiving software for JD Edwards

- **Great user experience**
 - Dashboards for archive and environment management
 - Workbenches for set up / configuration

The screenshot displays the 'Purge-it! Session Dashboard' within the Oracle JD Edwards interface. The main table lists session details:

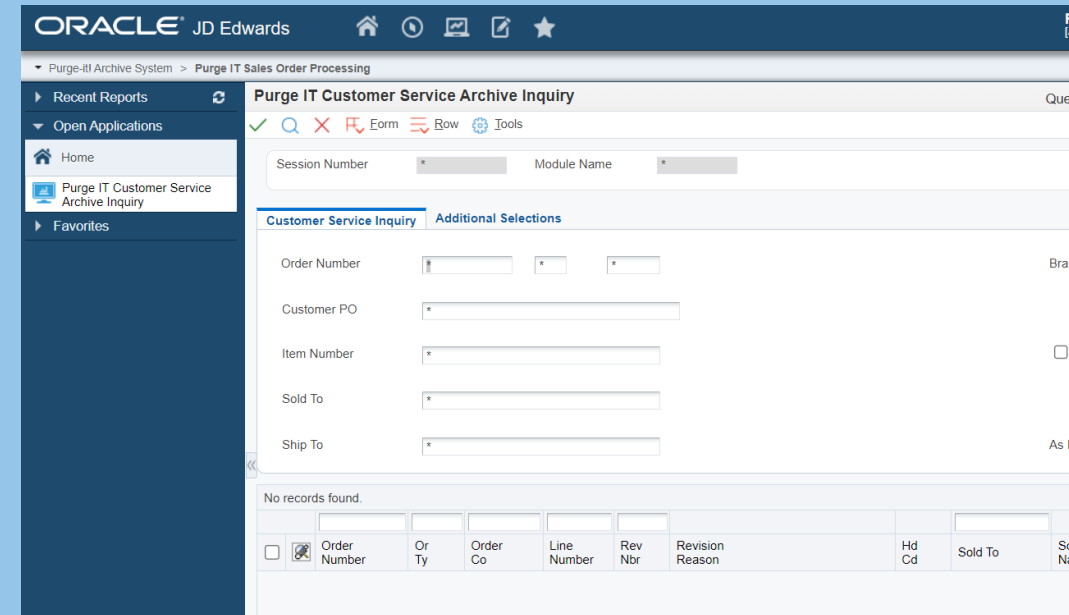

Session Number	Session Name	Module Name	Version	Profile	Session Run Status	Session Mode	Session Mod Desc	Run Date	Run Time	% Progress	Purge Amount MB	Module Data Size Before	Module Data Size After
3420	JDE-MANF	JDE-MANF	ZTEST0001	Module/Version Complete	U	Update		01/23/2023	15:40:38	100.00	.62	3.34	2.72
3419	JDE-MANF	JDE-MANF	ZTEST0001	Module/Version Complete	U	Update		01/04/2023	18:40:09	100.00	.62	3.34	2.72
3418	GLS_EAM1	JDE-CUST	ZTEST0001	Module/Version Complete	P	Proof		01/04/2023	17:30:17	100.00	.61		
3417	GLS_EAM1	JDE-CUST	ZTEST0001	Module/Version Complete	P	Proof		01/04/2023	17:29:50	100.00			
3416	JDE-MANF	JDE-MANF	ZTEST0001	Module/Version Complete	U	Update		01/04/2023	16:01:18	100.00	.62	3.34	2.72
3415	JDE-MANF	JDE-MANF	ZTEST0001	Module/Version Complete	U	Update		01/05/2023	14:54:41	100.00	.62	3.34	2.72
3414	JDE-MANF	JDE-MANF	ZTEST0001	Module/Version Complete	U	Update		01/05/2023	11:53:18	100.00	.62	3.34	2.72
3413	JDE-MANF	JDE-MANF	ZTEST0001	Module/Version Complete	U	Update		01/05/2023	8:24:14	100.00	.62	3.34	2.72
3412	JDE-AP	JDE-AP	ZTEST0001	Module/Version Complete	P	Proof		12/23/2022	8:21:56	100.00			
3411	JDE-AP	JDE-AP	ZTEST0001	Module/Version Complete	P	Proof		12/22/2022	9:43:59	100.00			

Below the table, there is a 'Run Status' section with a progress bar showing 100% completion for the current session. To the right, a 'Session Message Analysis' pie chart shows the distribution of messages, with a legend indicating 'Purge and Archival (42)', 'Exception (26)', and 'Reversed Variables'.

How Purge-it! delivers archiving

Archiving software for JD Edwards

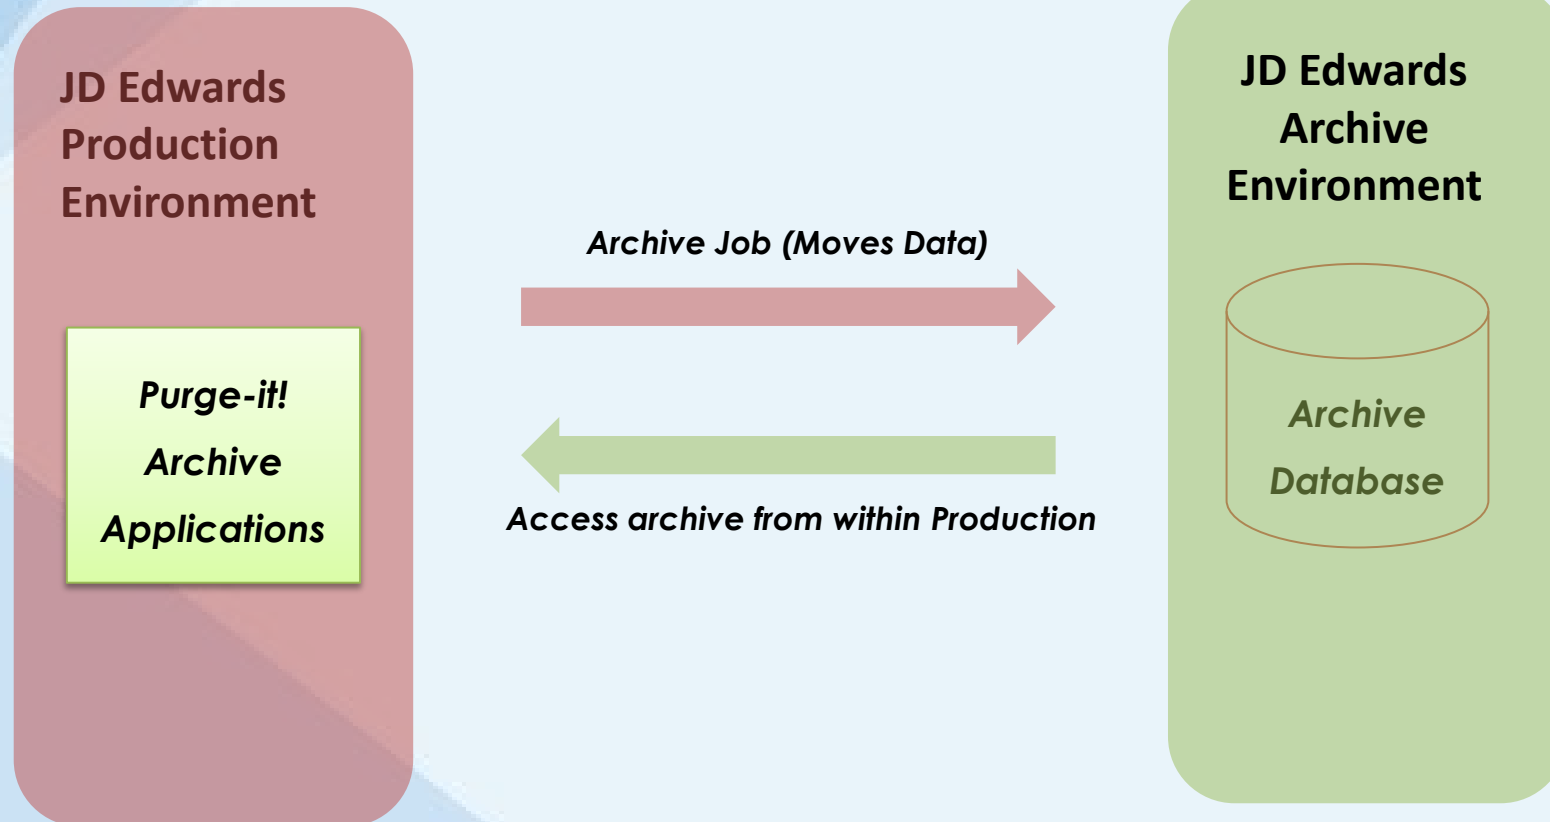

- **Easy Archive Access**
 - Archive data accessible from Production environment
 - No need to maintain separate Archive environment
 - No need to log out of Production and into Archive to review data

How Do You Access Archive Data?

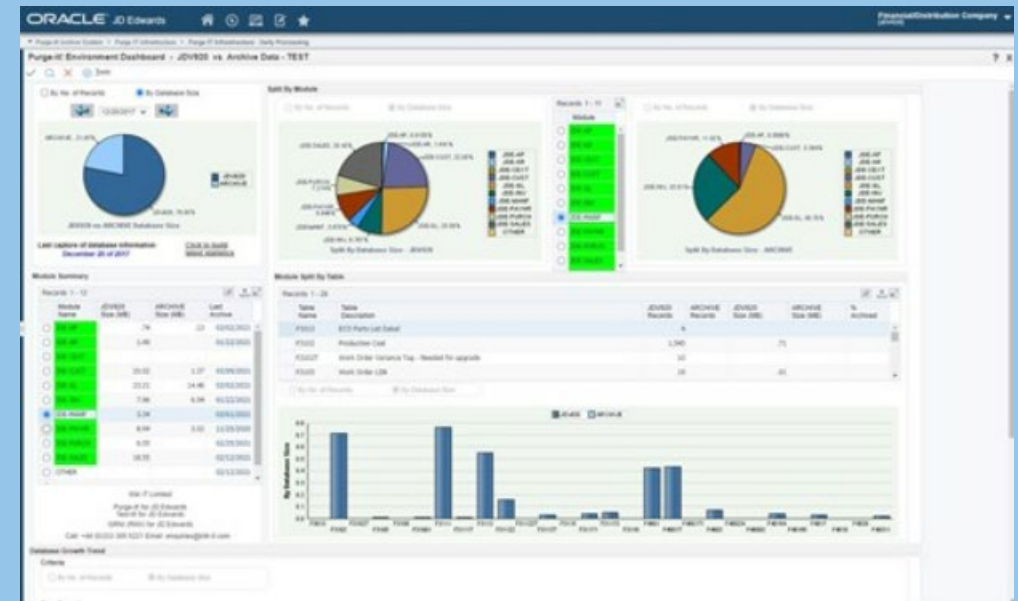

AND / OR

How Purge-it! delivers archiving

Gotcha's!

- Custom Tables?
- Media Objects?
- Reversing data if required?
- Access to Archive data?
- Automation (Housekeeping)?
